hit, one-bit filter on 8I - C: circuits, every coupled component
hit, one-bit filter on 8I - C: circuits, components > 8 items
hit, step polynomial d = 6 (shifted): circuits, every coupled component
hit, step polynomial d = 6 (shifted): circuits, components > 8 items
segment one-bit filter: circuits, every coupled component
segment one-bit filter: circuits, components > 8 items
segment QSVT comb d = 40: circuits, every coupled component
segment QSVT comb d = 40: circuits, components > 8 items
