response / response at first tra
classical delta / lambda
one-bit |cos(lambda t / 2)|
QSVT comb |p(lambda)|
eigenpairs (10 events, T = 1000)
s (decoupled)
weight on false segments
weight on true segments
eigenvalue of A
response / response at first tra
eigenpairs by component type
s (decoupled)
isolated false segment
isolated true segment
false pair
true pair
false triple or bridge
hub
complete track
broken track
contaminated track
eigenvalue of A
